

Appendix I – Privacy Notice to Clients

The Homeless Management Information System (HMIS) was developed to meet a data collection requirement made by the United States Congress to the Department of Housing and Urban Development (HUD). Congress passed this requirement in order to get a more accurate count of individuals who are homeless and to identify the need for and use of different services by those individuals and families. Several CoCs in the Southeast share a single HMIS implementation. The CoC Lead Entity designates the HMIS Lead Agency for that CoC.

Many Agencies in this area use the HMIS to keep computerized case records. With client permission as indicated by a signed Release of Information, client information can be shared with other HMIS participating Agencies throughout the Implementation. The information entered by participating providers and shared with client consent includes basic identifying demographic data (e.g., name, birth date, and gender), the nature of the client's situation, and the services and referrals received from the participating Agency.

Participating Agencies collect personal information directly from you for reasons that are discussed in their privacy notice. They may be required to collect some personal information by law or by the organizations that give money to operate their program. Other personal information that is collected is important to operate programs, to improve services, and to better understand client needs. They only collect information that they consider appropriate and accurate. The collection and use of all personal information is guided by strict standards of confidentiality.

Maintaining the privacy and safety of those clients whose records reside in HMIS and the /Agencies that use the HMIS is very important to us. Information gathered about each client and each Agency is personal and private. We collect information only when appropriate to provide services, manage our organization and the Database, or as required by law. The ownership of all records contained within the HMIS is retained by the organization/Agency that collected and entered or updated the client's information.

Confidentiality Rights

Each participating Agency is required to have a confidentiality policy that has been approved by its Board of Directors. _____ (Continuum-designated HMIS lead agency) must also have a Board Approved confidentiality policy. _____ (Continuum-designated HMIS lead agency) operates the HMIS in accordance with HUD and HIPAA confidentiality regulations, including those covering programs that receive HUD funding for homeless services (Federal Register/Vol. 69, No. 146), and those covered under the HIPAA privacy and security rules which govern confidential health information such as the diagnosis, treatment, of a mental health disorder, a drug or alcohol disorder, and AIDS/HIV condition or a domestic violence situation. Other rules that may also apply include 42 CFR Part 2 governing drug and alcohol records.

_____ (CoC #) is restricted to using or disclosing personal information from the HMIS to the following circumstances:

- For functions related to payment or reimbursement for services.
- For functions related to helping Agencies operate the System.
- For functions related to the development of reports to better plan services.
- To carry out administrative functions including but not limited to legal, audit, personnel, planning, oversight and management functions;
- To develop databases used for research, where all identifying information has been removed.

- To support contractual research where privacy conditions are met with an approved Institutional Review Board (IRB), and only if the shared information includes no identifying information about the client.
- Where a disclosure is required by law and disclosure complies with, and is limited to, the requirements of the law. Instances, where this might occur, are during a medical emergency, to report a crime against the staff of the Agency, or to avert a serious threat to health or safety.

Your Information Rights

All requests for client personal information located within the HMIS will be routed to the Agency/organization that collected and entered or updated the information.

_____ (CoC #) may not disclose your personal protected information located within the HMIS except as required by law or to help the participating Agency/organization that collected/entered/updated the information operate the System.

_____ (CoC #) may not publish reports on client data that identifies specific Agencies or persons. Public reports otherwise published will be limited to the presentation of aggregated data that does not disclose personal identifying information.

Please contact the Agency to which you gave your personal information in order to:

- Access or see your record.
- Correct your record
- Request that your record be shared with another person or organization.
- Terminate or withdraw a consent to release information.
- File a grievance if you feel that your rights have been violated.

Please note that you have the right to refuse consent to share your information between participating Agencies. You cannot be denied services that you would otherwise qualify for if you refuse to share information. Please note that if you refuse this permission, information will still be entered into the System for statistical purposes, but your information will be closed so that only that Agency you gave the information to and System Administrators operating the Database may see your information.

Please feel free to contact us if you feel that your information rights have been violated. Please address your written communication to the CoC (One Roof 1515 6th Ave S 5th Floor, Birmingham, AL 35233). Please include your contact information. We will respond in writing within 7 working days of the receipt of your letter.

How Your Information Will Be Kept Secure

Protecting the safety and privacy of individuals receiving services and the confidentiality of their records is of paramount importance to us. Through training, policies and procedures, and software we have done several things to make sure your information is kept safe and secure:

- The computer program we use has the highest degree of security protection available.
- Only trained and authorized individuals will enter or view your personal information.
- Your name and other identifying information will not be contained in HMIS reports that are issued to local, state, or national Agencies.
- Employees receive training in privacy protection and agree to follow strict confidentiality standards before using the System.
- The server/database/software only allows authorized individuals access to the information. Only those who should see certain information will be allowed to see that information.

- The server/database will communicate using 128-bit encryption – an Internet technology intended to keep information private while it is transported back and forth across the Internet. Furthermore, identifying data stored on the server is also encrypted or coded so that it cannot be recognized.
- The server/database exists behind a firewall – a device meant to keep hackers/crackers/viruses/etc. away from the server.
- The main database will be kept physically secure, meaning only authorized personnel will have access to the server/database.
- System Administrators employed by _____ (Continuum-designated HMIS Lead Agency) support the daily operation of the database. Administration of the database is governed by agreements that limit the use of personal information to providing administrative support and generating reports using aggregated information. These agreements further ensure the confidentiality of your personal information.

Benefits of HMIS and Agency Information Sharing

The information you provide us can play an important role in our ability and the ability of other Agencies to continue to provide the services that you and others in our community are requesting.

Allowing us to share your real name, even in the absence of other information, results in a more accurate count of individuals and the services they use. The security system is designed to create a code that will protect your identity on the System. A more accurate count is important because it can help us and other Agencies:

- Better demonstrate the need for services and the specific types of assistance needed in our area.
- Obtain more money and other resources to provide services.
- Plan and deliver quality services to you and your family.
- Assist the Agency to improve its work with families and individuals who are homeless.
- Keep required statistics for state and federal funders (such as HUD).

Risks in Sharing Information

While the HMIS was designed to promote better services for those who are homeless or might become homeless, there are risks that may lead some individuals to choose to do one or more of the following:

- Allow only your name, gender, year of birth, and partial social security number (optional) to be shared with all participating Agencies. All other information, including your date of birth, full SS#, where you are being served and your particular situation, is kept confidential or shared with only select Agencies.
- Allow some statistical or demographic information to be shared with select other Agencies, but do not allow other more personal data such as health, mental health, drug/alcohol use history or domestic violence information to be shared.
- Close all information including identifying information from all sharing. Only the Agency that collects the information and System Administrative staff may see the information.

PRIVACY NOTICE AMENDMENTS: The policies covered under this Privacy Notice may be amended over time and those amendments may affect information obtained by the Agency before the date of the change. All amendments to the Privacy Notice must be consistent with the requirements of the Federal Standards that protect the privacy of clients and guide the HMIS implementation and operation.
